Category I Fireplaces - 3 Ft to 6 Ft
DaVinci Custom Fireplaces™
*The most innovative and unique fireplaces ever made*

DaVinci is a fusion of fire and iconic, contemporary design – The epitome of the perfect decorative, non-heating custom gas fireplace in all areas of design, innovation and functionality. With DaVinci, there are no design limitations.

The breathtaking beauty and style of a DaVinci Custom Fireplace will create a dramatic focal point in any room. A sleek, contemporary profile features an all-glass viewing area that surrounds a ribbon of rich, dancing flames. DaVinci’s signature fire presentation draws you in with its striking presence of mesmerizing flames over a bed of Platinum* reflective crushed glass with adjustable vibrant multi-color LED lighting.

*Black Glass and Rock Embers also available.
DaVinci Custom Fireplaces® range in length from 3 to 6 feet, and feature five different glass heights of 12”, 20”, 30”, 36” and NOW 58” inches.

Watch a short video on how DaVinci Custom Fireplaces are made.
Your safety is our number one concern. Innovative engineering keeps our double-pane, crystal clear glass at extraordinarily low temperatures, reducing any potential for injury.

This standard safety feature on every DaVinci Custom Fireplace makes them ideal for decorative home applications and high traffic commercial installations.
Zero Clearance To Combustible Surfaces

The fireplace’s exterior remains cool to the touch from the outside air that is ducted to the fireplace. This eliminates the use of expensive non-combustible building materials and gives you the freedom to finish right up to the edge of the glass with any building materials you desire.

Sheetrock
Bring the clean finish edge of sheetrock up to the glass or use our custom black painted metal trim along the top edge.

Wood
Any wood finish of your choice can be installed right to the edge of the glass.

Tile or Stone
Use Hardy Board siding or attach stone or tile directly to the fireplace. Stone or tile can go right to the edge of the glass.
Features

- Manufactured in Mukilteo, WA by Travis Industries, North America’s premier manufacturer of hearth products.

- Winner of the prestigious Hearth Industry VESTA Award for Best New Gas Fireplace in North America.

- Manufacturing is extremely efficient, cutting lead times down to 4-6 weeks, which is half of the custom fireplace industry standard!

- Innovative modular design makes DaVinci the easiest custom fireplace to deliver and install at the jobsite.

- 14,500 BTUs per foot input.

- More than 500 individual custom fireplace designs to choose from.
  - 12”, 20”, 30”, 36” and 58” glass heights.
  - Order by the foot in lengths from 3 to 6 feet.
  - Seven Fireplace Designs:
    Single-Sided Fireplaces

- Zero clearance to combustible surfaces.

- Quiet power vent exhaust system accommodates vent runs up to 150 feet long. The exhaust vent can terminate above, to the sides or below the fireplace.

- Choice of vertical or inline horizontal power vent fans.

- Non-heater decorative fireplace rated.
  Tested and listed to:
  ANSI Z21.50b-2014 / CSA 2.22b-2014

- Optional heat exchanger available for applications requiring room heat.

- U. S. and Foreign Patents Pending.
60” (5 foot) See-Thru fireplace with 20” tall glass.
Enjoy the beauty of the fire without the heat or add the optional heat exchanger if heat is desired.
DaVinci Custom Fireplaces™ are available in seven different models, allowing you to create a fireplace with a design configuration that will architecturally complement any space.

• Single-Sided & See-Thru models: Lengths range from 3 feet to 5 feet.

• Right Corner, Left Corner & Pier Models: Lengths range from 3.5 feet to 5.5 feet.

• Bay Window & Island Models: Lengths range from 4 feet to 6 feet.
Five Glass Heights

All seven DaVinci models feature the choice of five different glass heights, which range from a sleek 12 inches tall up to a massive 58 inches tall.
DaVinci’s Platinum crushed glass floor is under-lit with vibrant colored LED lights that take this fireplace to a whole new level when illuminated. An endless array of vivid colors is at your fingertips, allowing you to set the mood and create the perfect ambiance for any occasion. The burst of color adds a mesmerizing glow around the flames and reflects off the crushed glass floor to create a dramatic presentation of fire unlike anything you’ve ever seen. Looking for a more subtle organic look? DaVinci Custom Fireplaces now offers Black Crushed Glass or Rock Ember options.

Multi-Colored Interior LED Lighting
Upgrade Options

Choice of Optional Liners
These contemporary liners provide a dramatic backdrop to the dancing flames of your DaVinci.

Choice of Optional Trim
Accent your DaVinci with the 2” Black Trim or the hand-hammered IronWorks™ Trim.

The IronWorks™ Trim is both a showcase of craftsmanship and a true work of art individually made by our talented in-house blacksmiths. Each IronWorks™ Trim features hand-hammered, textured surfaces and intricate detailing.

The IronWorks™ Trim is available in your choice of hand-rubbed Bronze Patina or Burnished Patina. These finishes are hand-applied by skilled artisans and are absorbed deep into the metal, giving a rich luster and imparting a unique look with no two finishes exactly alike.

Heat Exchanger Kit
While DaVinci Custom Fireplaces are primarily designed as a non-heating appliance, there are occasions where heat is desired.

DaVinci Custom Fireplaces makes a heat exchanger add-on option that allows you to vent heat in the room where the fireplace is located, or into a nearby location within the building.

The heat exchanger is not currently available for Bay and Island fireplaces.

Exterior Window Kit
The DaVinci Single-Sided and See-Thru models are now approved for Indoor/Outdoor Installation. This installation requires the NEW Exterior Window Kit.

The Exterior Window Kit can accommodate fireplaces up to 6 feet in length and can be used with 12, 20, 30, 36 and 58” inch tall glass.

davincifireplaces.com
Choice of Optional Fyre-Art™

Transform the overall look of your DaVinci with one of these transitional Fyre-Art™ options. We craft our Fyre-Art™ based on pieces of driftwood and time worn stones to offer the most detailed and realistic media available.

- Traditional Log Set
- Driftwood Log Set
- Birch Logs - 20” Glass Models Only
- Twig & Stone Kit
- Bamboo Logs - 20” Glass Models Only
- Tumbled Stone Kit
The sleek simplicity of this fireplace lends itself to a wide range of applications and has the ability to complement any residential or commercial space with its clean, dynamic view, and a fire that will not overheat your dinner guests. Available in one foot lengths from 3 feet to 5 feet. Choose 12”, 20”, 30”, 36” and 58” tall glass.
This eye-catching corner design adds visual depth and dimension to the fireview, while architecturally complementing a variety of applications. The modular design of the DaVinci allows us to custom build Corner Fireplaces in one foot lengths from 3.5 feet to 5.5 feet and in 12”, 20”, 30”, 36” or 58” glass heights. NOW COMES POSTLESS!

54” (4.5 ft) Right Corner fireplace with 20” tall glass
Bay Window

This fireplace features a contemporary three-sided glass design that showcases the fire from multiple viewpoints and provides a dramatic focal point to any room. Available in one foot lengths from 4 feet to 6 feet and your choice of 12”, 20”, 30”, 36” or 58” tall glass. NOW COMES POSTLESS!

72 Inch (6 ft) Bay Window fireplace with 12” tall glass
The unique architectural design of this fireplace serves as a beautiful focal point that can be used to divide a large living space or integrate two smaller spaces. Available in one foot lengths from 3.5 feet to 5.5 feet and in 12”, 20”, 30”, 36” or 58” glass heights. NOW COMES POSTLESS!
The See-Thru can serve as a stylish viewing window between two rooms, or provide a breathtaking display of fire to the center of large rooms and outdoor living spaces. Available in one foot lengths from 3 feet to 5 feet. Choose 12”, 20”, 30”, 36” or 56” tall glass.
The Island makes a stunning focal point for the center of any living space, as it features a 360 degree wrap-around fire view that can be enjoyed from any angle in the room. Available in one foot lengths from 4 feet to 6 feet and choice of 12”, 20”, 30”, 36” or 58” tall glass.
Venting

All DaVinci Custom Fireplaces are power vented. A quiet power vent exhaust system pulls combustion air into and around the fireplace while at the same time pushing combustion gases through the exhaust vent and out of the building. This system solves all venting challenges and accommodates vent runs up to 150 feet long or 3 feet below the unit, allowing you to install a DaVinci anywhere your imagination pictures it.

Vertical (Roof Top) Power Exhaust Vent Fan Termination

*Check with your local building codes for snow pack height requirements.*

Horizontal Termination (Inline Power Exhaust Fan)
Custom “L” Fireplaces By DaVinci - No Limitation!

The “L” is a larger than life new fireplace by DaVinci. As the name “L” suggests, this fireplace features a 90 degree turn of dancing flames extending in opposite directions, creating a stunning and architecturally unique presentation of fire.

With The “L” you have the ability to feature a fireplace with single or multiple 90 degree right and left corners of fire that can be configured as a Single-Sided, See-Thru, Bay Window, Island, Pier or Corner fireplace with any length sides you desire and glass heights ranging from 12 – 58 inches tall.
